ORDER AGAINST ORGANIZATIONS OF LUMBER MEN

Reverberations Of Federal Trade Commission Suits Hit San Mateo County People

According to information from Washington, D. C., early this week, it was revealed that the Federal Trade Commission has issued a "cease and desist" order against the Peninsula Lumbermen's Club of Redwood City, charged with unlawful trade practices and policies "found to have constituted a combination and conspiracy to engage in and to further unfair methods of competition" in the sale and distribution of lumber and building materials.

The order was directed against five other retail lumber dealers' organizations in California, the California Lumbermen's Council, Fresno, and its affiliated units; Coast Counties Lumbermen's Club, Watsonville; Central Valley Lumbermen's Club, Stockton; Northern Counties Lumbermen's Club, Sacramento; and San Joaquin Lumbermen's Club, Fresno.

This is probably the aftermath of suits filed in Washington some two years ago by the Federal Trade Commission in which the lumbermen's organizations were charged with unfair practices in restraint of competition and increasing prices to the purchasing public.

In the original suits, seven prominent San Mateo County lumber dealers were named as directors of the Peninsula Lumbermen's Club.

James B. McKeown, secretary of the Peninsula organization, denied truth of the charges, explaining that the Peninsula Lumbermen's Club, with headquarters at 2194 Broadway, Redwood City, was an organization to aid the lumber business and correct housing problems.

BADEN KENNEL CLUB LAUNCHES GAME OF SKILL

Keen Rivalry Expected In Competition Between Handicappers Of Greyhounds

Baden Kennel Club this week launched one of the most sensational tests of skill ever announced on the Pacific Coast—with \$3000 offered each Thursday for the most skillful handicappers among the fans.

The competition, free to all persons at the track excepting minors, employees of the track, owners and trainers of greyhounds or their families, is a test of ability to pick the winners in the greyhound races.

Seven races will be in the competition each night—the fifth to the eleventh, inclusive.

Next Wednesday night, after six nights of racing, the entries made by the handicappers will be tabulated. To the handicapper with the highest number of winners the kennel club will award \$1800; second place handicapper will receive \$750 and third \$450—\$3000 every Thursday.

In addition the track will offer \$500 nightly for all handicappers who can select seven consecutive winners—a perfect record.

WE ALL KNOW THIS IS TRUTH

"Seventy-five years and a tortured, boiling ferment of political, social and economic change separated Franklin Roosevelt at Gettysburg from Abraham Lincoln at Gettysburg. But there is no disunity of spirit, nor any bridgeless chasm of ultimate purpose, as these two really great Americans stood, one following the other, upon ground hallowed by the blood of freemen. The Union was safe with Abraham Lincoln, though many characterized him as a charlatan and called him a tyrant. And the Union is safe with Franklin Roosevelt, no matter what they call him."

—Louisville Courier-Journal. (Ind.)

FLOOD WATERS SWEEP BRIDGE AWAY AT BRADY, TEX.

Swirling flood waters recently swept away a bridge from Brady, Tex., leaving the entire town undated. Business was halted and residential districts were out of communication with the central parts of town. In the foreground is the buttress which held the bridge before it collapsed and was carried away by the high water. The courthouse, in background, was completely isolated. Residences were undermined and general havoc was wrought. The Colorado River, fed by flood tributary streams, threatened Austin, Tex., state capital.

CREWS CORRECT DESIGNATIONS ON EL CAMINO REAL

Confusing Signs Finally Straightened Out To Aid Traveling Public

Road sign crews of the California State Automobile Association, on Tuesday of this week, started installation of plates reading "Bypass" over the U. S. 101 signs on the Bayshore Highway from San Francisco to San Jose and the removal of the "Alternate" signs on El Camino Real leaving only the U. S. 101 shield markers on the latter route between the two cities.

The motorists organization, as official road-signing agency for northern and central California, was ordered to make the change, in instructions received from the State Division of Highways.

Installation of approximately 150 "Bypass" plates on the Bayshore and removal of the alternate signs from El Camino is expected to be completed within a week.

LOST WOMEN FOUND

The distinctive license plate, "G-777," on the abandoned car, it is believed, led to the rescue of three women tourists from Kentucky, who were lost four days and nights on the lava beds of western New Mexico, near Albuquerque.

The wanderers were located Monday of this week.

Gov. Winship Escapes Assassin's Bullets

Governor Blanton Winship

Major General Blanton Winship, governor of Puerto Rico, who recently escaped an assassin's bullets at Ponce, P. R., while he was reviewing a parade. Police immediately returned the fire from among large crowds watching celebrations of the landing of American troops in the Spanish-American War. Lieutenant Colonel Irizarry of the Puerto Rico National Guard was fatally wounded. At least two persons were killed and twenty injured following the exchange of fire.

WESTERN SAFETY UNEMPLOYMENT CHECKS BENEFIT EVERY BUSINESS

The Western Safety Conference is meeting for its fourth annual convention in Los Angeles, September 12 to 16, inclusive. Eight major committees will cover every phase of the subject—home, industrial, aviation, traffic and public safety. The main objective of the convention will be uniformity of laws pertaining to safety in the Western area, which includes eleven western states, Baja California, Alaska and British Columbia.

The Traffic Safety Section will consider such subjects as drunk driving, better identification of the operator, uniformity of signs, accident investigation, highway illumination, the pedestrian, education and enforcement.

Everyone interested is invited to attend, particularly safety committee members of civic and fraternal organizations, members of safety commissions and councils, as well as safety engineers of industrial and commercial firms. It will probably be the largest and most highly developed safety convention ever held in the West.—San Mateo County Traffic Safety Commission.

ALIMONY IS LOST JUDGE FINDS IT

A dark mystery was cleared up in Judge Cotton's court, in Redwood City, early this week by the discovery that the judge had the alimony.

Mrs. Nellie Shoots had hailed her ex-husband, Robert, into court for failing to send her a \$20 alimony check.

Shoots declared, when he appeared in court, that he had mailed it. Mrs. Shoots insisted she had not received it.

With Shoots insisting on his point and the ex-wife insisting on hers, the situation became somewhat confusing. Judge Cotton finally got an idea, so he inquired of the husband:

"Just when did you send this \$20 monthly alimony check to Mrs. Shoots?"

"To Mrs. Shoots?" exclaimed Shoots. "Why I didn't send it to her, I sent it to you, Judge!"

No you didn't," said the judge. "Oh yes I did," insisted Shoots. Judge Cotton called time out while he searched through some of his mail, unopened for four days while he was away from his office. The monthly alimony check, for lack of which Mrs. Shoots had hailed her husband before the court, was there.

"I told you so," said Shoots. "So you did," said the judge, "but after this just send it to Mrs. Shoots. It's easier."

Large Amount Of Cash Entering Trade Channels Is Stimulating

Unemployment compensation checks in San Mateo County are finding their way into the hands of the groceryman, the department stores, the landlords and a dozen other classifications of business enterprises.

A total of \$102,762.71 in actual cash had been distributed to claimants at the San Mateo office of the State Department of Unemployment up to July 1, in 9986 unemployment compensation checks. During the month of June, claimants in this county received 2738 checks totalling \$27,523.66.

"But the mere fact that this money is coming into the community doesn't mean much," said the manager of the San Mateo office, "unless there is a general idea of what's being done with it."

"A survey of several thousand checks made in Sacramento revealed this week that the vast majority of checks received here had been cashed by banks and food stores."

"Other business establishments in which claimants cashed their checks, indicating that at least a portion of the funds had been spent in those establishments, included butcher shops, clothing stores, department stores, service stations, garages, drug stores, hotels and apartments, loan establishments, dairies, insurance companies, ice plants, express companies and a dozen other miscellaneous establishments."

ALASKA TO HAVE PLANE SERVICE IN DIRECT FLIGHT

It was announced, early this week, at New York headquarters of Pan American Airways that a series of experimental flights would begin, August 6, as a preliminary to establishment of regularly scheduled transport service between Seattle, Wash., and Juneau, Alaska.

The only connection at present between the United States and its largest territory is by coastal steamer, requiring three days for the passage between Seattle and Juneau. Pan American expects to establish seven-hour schedules between the two cities.

At Juneau the new service will connect with the Pacific Alaska Airways, a Pan American subsidiary, which set up mail, passenger and express service to interior Alaskan points in 1932.

FOREST FIRE CAUTION APPEAL TO MOTORISTS

Protection of scenic and recreational assets in the forested areas of the state by carefulness in handling campfires and disposing of burning matches and tobacco was urged upon the motoring public in a statement today by the California State Automobile Association.

Pointing to the heavy toll caused by the recent widespread outbreak of lightning-caused forest fires, it was emphasized that danger of further fires will continue through the remainder of summer and early fall. Long after the season when lightning is a cause of fires the forests will continue to be exposed to the threat of man-caused fires.

"Warm weather and drying winds leave a tinder-like condition in many forest sections, needing only one careless act with fire to start disastrous conflagrations," the statement continued.

"Thousands each year enjoy the recreation these forests offer. The United States Forest Service is doing much to provide improved facilities for motorists and campers, and to make the forests more easily accessible. Those who benefit should be alert to do their part in protecting these regions against fire."

"State law provides that outside of a business or residence district no person shall wilfully or negligently throw from any vehicle upon a highway any lighted cigarette, cigar, ashes or any other flaming or glowing substance."

"In national forests during the summer season no smoking is permitted except in camps, at places of habitation, or in special areas along roads and trails set aside for the purpose and posted to that effect."

LARGE OFFICIAL LIST OF MISSING

Thousands of people are waiting and watching in this country of ours for loved ones, who did not return. Eagerly scanning the countenances of passersby they continue to watch and pray that some day a loved one will be recognized among the many strange faces as the crowds surge on. It was recently estimated by the Department of Justice officials that 16,141 Americans are listed officially as "missing."

Ruth Judd, Slayer, Recovering From Sedative

Winnie Ruth Judd

Winnie Ruth Judd, "trunk murderer" of her two closest friends, who was recently reported recovering in Arizona State Hospital from the effects of a sedative. Hospital officials insisted the tablets were not taken in a suicide attempt. Mrs. Judd, who dismembered the bodies of Agnes A. Leroi and Hedvig Samuelson and shipped the parts in two trunks to Los Angeles, was condemned to hang, but was finally adjudged insane.

Sheriff Acquires Sixteen More Illegal Coin Devices In Raids This Week

The number of slot machines confiscated by the San Mateo County sheriff's office was increased by sixteen this week.

In a threehour series of raids, last Sunday night, Deputy Sheriffs Hugh Williams and Louis Lodi visited six resorts on the Coastside and in other parts of the county and made seizures.

At Mori's Point they found four machines, two of the 5-cent variety, one 10-cent device and another 25-cent machine.

At Reese's Tavern, Pedro Point, they took 5- and 10-cent machines.

Dan Bertolotti's Inn at Moss Beach yielded three 5-cent machines.

Large's Cafe at Princeton produced 5-, 10- and 25-cent machines.

Skyline Barbecue stand at Skyline boulevard and the Half Moon Bay road intersection, and Herndon's Cafe at Belmont each yielded two machines of the 5- and 10-cent varieties.

According to Sheriff James J. McGrath, the machines will be stored until the courts order them destroyed, when the grand jury will be invited to witness the proceedings and transfer the cash to the county treasurer.

SEEKING TALENT FOR THIS YEAR FLORAL FIESTA

Rodeo Will Be Highlight—Local Entertainers Urged To Participate In Tryouts

Persons with talent for acting, singing, dancing, fencing, horsemanship, instrument playing and similar entertaining may try out for parts in the annual pageant of the San Mateo County Floral Fiesta this year, it was announced today.

Persons interested in taking part may attend the first rehearsal of the group at the old Central School, San Mateo, at 8:30 p. m. next Wednesday, August 3.

The annual call for talent for the Fiesta was announced today by Bruce Gibson, president, and Chester Lipman, secretary, following a conference with Lou Ashe, noted producer, who will direct the pageant again this year.

Ashe announced that this year's pageant will be based on further writings of Stewart Edward White of Hillsborough and the story would be a continuation of the historical adventures of Andy Burnett, intrepid adventurer whose activities were unfolded last year in the pageant, entitled "The Song of Don Largo." This year's play will be titled "The Rise of Don Largo."

Fiesta headquarters have been moved to 116 B street again this year and communications may be sent there. Persons wishing for tryouts for the pageant may send their names and qualifications to headquarters and then appear for the Wednesday rehearsals. Rehearsals will also be held next Thursday, August 4, and Friday, August 5, in the school auditorium.

Highlight of the 1938 Fiesta will not be the spectacular pageant, but rather the rodeo, which will be conducted similarly to the successful show at Salinas. Rodeo events will be held afternoons of Friday, Saturday and Sunday. The Fiesta runs from Wednesday, September 21, through Sunday, September 25.

New Citizens For San Mateo County

Out of a class of thirty-seven students in a naturalization class, eighteen were admitted to citizenship in Superior Judge Aylett R. Cotton's court, Monday of this week. The test was conducted by United States Examiner Z. B. Jackson.

Palмира Curotto, Daly City, and Silvio Papini, Colma, both natives of Italy, were among the new citizens.

SPEAKING OF PEACE

(Editor's Note—We were all set to burst forth, in this week's issue, with a brilliant dissertation on peace in the world. After sitting down one evening and "getting a good start" on the subject, we came across the following editorial, printed in a recent issue of the Vancouver Sun, and came to the conclusion that it is so much better than our own puny effort could have been that we pass it on to our readers.)

There was a so-called "peace meeting" in London a short while back which concluded with a fuss in which one of the peace-lovers offered to punch the nose of another peace-lover because the latter would not agree with the former as to proper methods for securing peace.

Another pacific gentleman, painting in glowing colors the glories of peace, made this statement, that he "looked forward to the time when every man would be able to do as he liked—and if he didn't, he'd be made to."

The point is that "peace" is probably the most abused term we have.

We have any number of people who vociferously demand peace with Italy, peace with Germany, peace with Russia and peace with Japan and yet many of them do not even know what it is to have peace in their own homes.

There is no use, for instance, getting all excited about what the Japanese are doing in China or what the Italians are doing in Spain or about what Hitler is meditating against the non-Nordic world and getting yourself all lathered up with prejudices and hatred so long as you nourish in your own heart dislikes and ill-will towards your neighbors and associates.

Nothing could be more ridiculous than a man preaching peace among the nations when he cannot restrain his spite against the fellow who lives next door.

Peace is a problem that should be examined fairly and honestly.

Peace does not arise from treaties; it is not made by mass demonstrations; it cannot be manufactured by slogans.

It is purely and simply a product of the human heart. Without that inward desire to live on good terms with one's neighbors and to accept blame for one's own behavior and to right wrongs that are of one's own making, one cannot expect to find peace anywhere in this troubled world.

How can we expect the nations to have peace while war rages among individuals?

How can we expect wars to cease among national groups so long as individual men and women continue backbiting, gossiping and blackguarding one another?

We must look to our own conduct, to the way we run our homes and to the fairness with which we deal with other people.

When we are living at peace in our own little individual worlds, then only will come hope for the earth.

ROCKAWAY BEACH PEDRO VALLEY

By C. H. T.

A fog-smitten week end kept visitors away from the coast, and the place seemed as lonely as a desert island. The cheerful sound of hammer and saw, so linked with Sunday in this locality, was missing, as cabin building halted for more encouraging weather. Monday and Tuesday, too, brought gray fog, which fact gives promise of a fine week end to come; for fog seldom stays more than a few days. Here's hoping!

And now for neighborhood news, and the happenings of the week past.

Alfred Goetschen has just returned to Pedro, after an absence of about ten days. Rumor has it that he is considering the purchase of a new saddle horse, in place of the plendid coal-black steed that has carried him on many a ride over the local trails in the past few years. Probably every resident in this quarter would regret the passing of this beautiful horse, which, with his sturdy rider, brought to mind a heroic picture of classic statues in the square.

Colonel Creighton, of the Medical Corps, United States Army, has taken the Eustace house on Pedro beach for the summer.

The Fred Bohrs, with Mr. and Mrs. Harry Rees, motored to the Yosemite last week, starting at the up-and-at-'em hour of 3 a. m. After a pleasant trip they are home again, presumably making up for lost sleep.

Mr. and Mrs. Gordon Burrows, of the Riverside Hotel, Reno, Nevada, were visitors at Pedro for two weeks, at the Alfred Gough cottage. With them were their daughter and her

fiance, "Buster" Lund. They made many friends during their stay, and all who met them express the hope that they will return for a longer visit to the coast. Says one neighbor, "The Burrows are wholesome, outdoor people, notable for their unity as a family. One of the daughters was left behind at the hotel, of which her father is manager, and every night there was a long distance telephone talk between the young girl and her parents."

George Mahoney and his wife have bought the neat little cottage next

AERIAL NUPTIALS RULED ILLEGAL

Marriage three miles up in the air is illegal. This was the greeting Edward von Glatte and Jane Webster received when J. Albert Hutchinson of the offices of Attorney General U. S. Webb gave his unofficial opinion. Von Glatte and Miss Webster left a Los Angeles flying field aboard a United Air Lines mainliner to be wed by Captain Richard Bowman, deciding to test their contention that if a captain of a ship can perform the marriage ceremony out at sea, an airplane captain should be able to do the same thing. Hutchinson's objections were that, first, the wrong kind of "sky pilot" officiated. An airplane chauffeur, Hutchinson opined, hasn't the historic background or statutory authority of a ship's captain. Second, any attempt to leave the jurisdiction of a state merely to evade its law would void the marriage, it was held.

door to the Rees place, formerly owned by Mr. and Mrs. Light. The house has been freshly painted outside, and a number of improvements made for their summer residence.

Mrs. Grace Danmann has been laid up with a painful knee, but is now able to limp about the house with the aid of a cane.

Herman Bryant, chief of the photograph staff of the San Francisco News, took a number of official pictures of President Roosevelt on the recent visit to the city and elsewhere. He reports that Roosevelt is one hundred per cent amiable about turning this way and that at the photographer's direction, and an admirable subject in every point. The net result was a group of excellent photographs—and a general musing up of Mr. Bryant's sleeping schedule, since following the picture trail of a presidential party involves high pressure work over long periods, sleep, or no sleep. Carol Bryant, oldest child, has already cut out all the pictures from the News, and industriously pasted them in her scrap-book, while Bill, her brother, has memorized every detail of the President's visit, and can tell you all about it.

Dr. William L. Shawk of Rockaway suffered a "stroke" about ten

days ago, and is now recovering at a San Francisco hospital.

Mr. Romano is building a five-room house at Rockaway, just behind the White House Cafe.

William Bailey, who has been seriously ill for two years, returned home to Rockaway a week from last Wednesday, after spending many tedious months at sanatoriums in Arizona and Colorado. Mr. Bailey made a sudden decision, and airmailed his wife that he would be at home in a few days. That his decision was a wise one is proved by the fact that already he has gained a pound a day in the brace-

Juror Missing On Way To Lunch

The twelfth member of a superior court jury nearly lost his luncheon, Monday of this week, in Fall River, Mass. Deputy sheriffs, while escorting the august body of justice to the place where their midday repast was to be served, noticed they had in their custody only eleven jurors.

A quick trip to the courthouse disclosed the missing member locked in the jury room. He joined his colleagues later at luncheon.

DRUNK DRIVING CHARGE

After his machine collided with another driven by Roland Peplock, 40, San Francisco, Tony Rettigliotia, 30, a San Francisco longshoreman, was taken to the South San Francisco Hospital, Sunday night, where he was treated for fractured ribs.

The injured man was charged with drunken driving.

ing coast air, and he is up and about the house, although for over a year he had not set foot on the floor. Mrs. Bailey says when she went home the other day for dinner, there sat the invalid, fully attired in sport suit, and ready to eat a full-size meal of roast chicken at a family reunion of laws and in-laws. His only regret is that he has not yet seen his grandson, but this will soon be remedied if Edgar can get leave from his business at San Diego, and come up with wife and boy.

And, speaking of chicken—we'll have something to say about that next week.

Mrs. Gladys Stewart got her picture in the News of July 26, holding a 38-pound salmon she caught the day previous. Being of the blonde persuasion Gladys doesn't take a very good photograph—but it was a dandy picture of the salmon! Mrs. Stewart is to be interviewed, over the air, we hear, some evening soon (this coming Friday?) about fishing at Point Pedro and off Shelter Cove, the interviewer being a well known sports editor on a San Francisco daily.

Miss Marcella Bonly of Pedro was married, July 23, to Mr. Bill Hanke of San Francisco. The groom is in the baking business. The young couple will make their home in San Francisco.

STATE FAIR TO HAVE LIVESTOCK SHOW THIS FALL

A livestock show that will focus the eyes of the world on California will be held at the 1938 State Fair and Exposition in Sacramento, September 2 through 11.

Prize winning animals from a dozen states and foreign countries, competition of Future Farmers of America and 4-H Clubs, and a two mile \$2,000,000 livestock parade will combine to attract the attention of the livestock industry. Loud speakers have been installed at the beef and dairy cattle judging rings, a feature, which, coupled with other new accommodations, will make this year's judging exceptional.

On Governor's Day, two miles of prize-winning animals, worth an estimated \$2,000,000, will parade in front of the grandstand, which, enlarged by a \$165,000 addition, will seat 20,000 people.

The parade is annually the highlight of the livestock department of which Fred H. Bixby of Long Beach is chairman.

The finals of the horse and mule pulling contest also will be spotlighted in front of the grandstand. Finalists for the events will be chosen from 250 teams entered in 1938 district fairs and rodeo pulling events.

The California State Fair dynamometer will be used to measure the pull of the teams, and assures a test of skill and strength as thrilling as any football game for the thousands who will witness the contest.

THREE F. D. ROOSEVELTS

Franklin Delano Roosevelt, Jr., proud daddy of the president's eighth and last grandchild, announced, Monday of this week, that his distinguished offspring will be named Franklin Delano Third.

BAYSHORE NEWS WANTED A WIFE IS IN QUANDARY

Irene Mardecich

The Bayshore sanitary board held a meeting on Wednesday, July 27, specially called for all men whose names appeared on the list of sanitary inspectors. These men are afforded a few days work each month at the Fill and Cover project, commonly known as the "dumps." The names are arranged in alphabetical order and are called for work accordingly. Recently, protests were received by the board that many of these men were working at outside jobs in addition to this work, and it was decided to call a meeting and ask all men who had been reported as working elsewhere to show cause why they should not be refused more work by the sanitary district. In addition to this, new sanitary ordinances were discussed at the meeting.

An election to fill two vacancies on the Bayshore sanitary board will be held on September 19. Official filing dates are from August 20 to August 30, inclusive. The two members, whose terms will expire at this time, are George Stone and Sam Elliger.

Mrs. Ruth Dufford entertained about twenty small guests in honor of her son's birthday, last Friday afternoon. The party was held in the Riley Hall. Mrs. Dufford served the children with very delicious refreshments, and the fun was had in the form of many games.

Dolores Mardecich celebrated her birthday this week.

Nancy Vickers celebrated her birthday last week. Her mother entertained in her honor at the home of Mrs. Hilton Carson. Nancy received many nice presents, and a good time was had by all present.

A large fire was narrowly averted at the home of Mr. and Mrs. Rashleigh on Oriente street, last Monday evening. A small gasoline stove exploded and started to burn. Neighbor, however, saw the blaze and called the fire department, which quickly extinguished the fire before it had a chance to spread.

Mr. and Mrs. C. J. Quinn returned from a month's vacation tour through California last week. They report having a good time.

BAYSHORE PTA

Mrs. Beatrice Jeppeson,
Publicity Chairman

Our Sunshine Chairman Mrs. Wentworth announces that one of our members, Mrs. Klauber, is ill in the Mount Zion Hospital. Mrs. Wentworth would be happy to have any of the members go with her to visit Mrs. Klauber and help to brighten the days for her.

The picnic held at Gillman Park, Wednesday, July 27, was well attended, about 22 adults with their children turning out. The children and some of the adults went in swimming; others played baseball; some of the boys fished off the rocks, the champion fisherman being Richard Little with a fish at least 3 inches long. Some of the most agile mothers climbed around and investigated the picnic grounds on the top of the hill and reported a beautiful picnic spot and wonderful scenery. The committee and all members present gave a vote of thanks to Mr. Mangels Sr. as chief fireman; there's nothing like having the fathers and grandfathers along to make a real picnic. The children enjoyed roasting their weenies and marshmallows, even though it wasn't over a night camp fire. It was such a nice warm day and everyone enjoyed themselves.

Place To Park Babies

The City Council of Saskatoon, Sask., recently set aside a "down-town" lot for use of Saskatoon mothers who have to push baby carriages about on shopping trips. On this lot mothers may park perambulators in safety, and this timely action by Saskatoon's city fathers is the community's latest convenience.

Let us ship you a fine young Cock. We have 20 breeds, including the world's best Fighting Game. Will ship single or with a pullet. Month old Pullets and Cockerels and Hatching Eggs of Hen, Duck, Goose, Turkey. Write advising wants exactly.

NICHOLLS HATCHERY
ROCKMART GEORGIA

WANTED A WIFE IS IN QUANDARY

Judson Van Arsdale, 64-year-old resident of Matawan, N. J., advertised for a wife and received two responses in person, from Mrs. May Meyer of Washington, D. C. and Mrs. Nellie Davis of Paris, Ill.

Last Sunday night the would-be husband solved his marriage dilemma of two weeks standing, in a manner evidently satisfactory to all concerned. Mrs. Meyer was a corn fritter artist and Van Arsdale always came to meals on first call, wherever and whenever corn fritters were involved; so Madame Meyer was the lucky winner of his heart and home.

What about the other candidate? Mrs. Davis, who had traveled all the way from Illinois, thought there was nothing for her to do but pack up and return to her home. Judson just couldn't stand for that. So Mrs. Davis, plump and pert, is still around the house, serving in the capacity of housemaid for the winner.

Van Arsdale, seemingly annoyed by his neighbors' curiosity, flatfootedly refused to discuss matters with anyone, disclosing the fact that henceforth his private affairs were his own business and not that of prying busybodies and gossips.

Want Candidates Know How To Drive

In an effort to promote safety on the highways, state officials in Sacramento, proposed, Monday of this week, that every candidate for a state position, involving the operation of a state owned automobile, be required to prove that he is a competent driver, as well as being able to show a satisfactory safety record.

An improved system for checking state car accidents, special tests for state drivers to correct driving habits and the continuation of the safety committee was also included in the recommendation.

Grand Canyon Expedition Continues Colorado Trip

Members of the Nevill's Colorado River Expedition party are shown as they recently landed at Tanner Trail in the Grand Canyon after completing an eight mile trip from Lee's Ferry. They lighted one signal fire to advise forst rangers of their safe arrival. The expedition is using three 15-foot boats. The two women members are the first ever to make the hazardous trip. Photo shows, left to right, Artist W. C. Gibson, Dale Reed, boatman; Lorin Bell, Lois Jotter, E. Clover and Norman Nevills. The group started from Green River, Utah, with Boulder Dam as their goal.

Mrs. Buck Allowed Substantial Amount

The will of the late former Superior Judge George H. Buck, who died at his home in Redwood City on July 5, was admitted to probate by Superior Judge Maxwell McNutt early this week.

The widow, Mrs. Elizabeth Buck, who was bequeathed the major part of the estate, was granted \$1000 a month allowance by the court, pending settlement of the estate.

VISITACION VALLEY NEWS

WHIST PARTY

The Valley Social Club will hold a whist party on Sunday, July 31, at 7:30 p. m. It will be held at W. O. W. Hall, 17 Raymond avenue, near Bayshore boulevard, Visitacion Valley, San Francisco. Many valuable prizes are to be awarded.

Increased Internal Revenue Collections

Due to raises in income, social security and railroad retirement tax collections, the treasury department at Washington, disclosed recently, that internal revenue collections in the 1938 fiscal year which ended June 30 totaled \$5,658,765,324, an increase of \$1,005,569,999 over 1937.

RESIGNS POST TO RUN FOR OFFICE

A. E. Snider, publisher of The San Fernando Sun, has resigned as secretary-treasurer of the California Newspaper Publishers Association, to become a candidate for the office of state controller at the August primaries.

Snider was serving his third term as financial officer of the newspaper organization, whose constitutions and by-laws specify:

"No member holding any elective or appointive office under the state of California, shall be eligible for the office of president or a member of the executive committee."

The secretary-treasurer is a member of the executive committee.

CREEL TO BACK OFFICE SEEKER

George Creel, Democratic chieftain in California, friend of President Roosevelt and dynamic writer and political leader, has announced his backing of P. J. McMurray, Democrat, who is running for the Board of Equalization on all tickets at the August 30 primary. His name will be on the ballot in San Francisco and six other counties, San Mateo, Santa Clara, San Benito, Santa Cruz, Monterey and San Luis Obispo.

McMurray filed on all tickets so that the voters would have a free choice to select a candidate for this important office. He has been endorsed by all Democratic county committees in the seven counties in which he is running.

Edward R. Davidson, 53, of Syracuse, N. Y., has earned his livelihood the past 35 years by posing as a mechanical man.

SAVE 10%
ON GAS HEATING EQUIPMENT
SUMMER SALE

PUT MEN TO WORK

BUY NOW PAY LATER

This 10% Summer Discount Offer with terms of no monthly payments until October 1, is like an even trade between you and the gas equipment dealers. You are buying out of season. You are helping dealers keep installation crews busy during a slack season. So a money-saving inducement in the form of a 10% Discount is passed on to you.

You, too, will get better service all around by buying your gas heating equipment now by getting an unhurried job, carefully adjusted and installed.

This exceptional money-saving offer and easy terms are in effect for a short time. Will you be among the many persons to take advantage of it? Be thankful you did. Order gas heating installed this week.

BRISBANE GENERALITIES

We hear tell that the WPA are to be busy in our town for some time; first of all on the roads and sewers, getting them in shape before the next winter. Then the crew is to move right on down, to fill in our pond preparatory for the playground. Mr. Deal says they expect the project to take 18 months.

Mrs. Annis and son Harold, and Miss Rose Giampolini are spending their vacation at Yosemite.

According to the grand jury investigating committee, a fire district can assess only 1/2 of 1 per cent for maintenance for a period of one year, and no truck can be purchased without the vote of the people in a district of this type. The fire commission has been asked to hold an election, at a near future date, to decide the desires of the residents of Brisbane. The fire department maintains that its present equipment is needed to properly care for the town. The opposition claims that it isn't, and that instead of a new truck, adequate water supply and plugs should be installed first. So the battle is now in your individual laps to vote for or against.

Mrs. Ruby Nunn and Mrs. Artie Curtner left Sunday for a two weeks visit with friends and relatives in Los Angeles and vicinity.

J. Carso, our town garbageman, has asked our aid in securing the return of a brown wallet. Look for his ad in last week's paper for description and details.

Christian Science Lesson Sermon For Next Sunday

In all Christian Science churches, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass., a Lesson-Sermon will be read Sunday, July 31, on the subject "Love."

The Golden Text will be: "The Lord is good to all: and his tender mercies are over all his works" (Ps. 145: 9). Bible selections will include the following passage from Isaiah 40: 30, 31: "Even the youths shall faint and be weary, and the young men shall utterly fall: But they that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run, and not be weary; and they shall walk, and not faint." A passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will also be included, which reads as follows: "God rests in action. Imparting has not impoverished, can never impoverish, the divine Mind. No exhaustion follows the action of this Mind, according to the apprehension of divine Science. The highest and sweetest rest, even from a human standpoint, is in holy work" (p. 519).

LICENSE SUSPENDED

The sheriff's office of Redwood City was advised, Saturday of last week, that the State Board of Equalization had suspended, for ten days, the liquor license of the Out of Town Club on Bayshore highway.

NINE PERSONS CONCERNED IN RARE MYSTERY

Identity Of Guilty One Remains Hidden Till Just Before Final Curtain

One of the wierdest—and most interesting—mysteries ever to be presented on an American stage was seen by a packed house at the Alcazar, Monday night of this week, when the Federal Theater opened with "Night Must Fall."

A murder has been committed. Only nine persons are in the cast. Who's guilty? So cleverly has Emyln Williams, English playwright and actor, psychologized this one, arranged and re-arranged the elements of a good puzzler that it is not until the last curtain is half way down that the identity of the murderer is positively known.

Even Inspector Belsize (Daniel Pennell), of Scotland Yard, is not above suspicion; nor is Mrs. Bramson (Ruth Saville), crotchety, wealthy, invalid, unable to leave her wheel chair; nor Olivia Grayne (Grace Cooper), niece and employee of Mrs. Bramson; Hubert Laurie (Max West), a "toodle-oo, pip pip" type of Londoner, in love with Olivia; Nurse Libby (Alice Bartlett), cunningly stupid or stupidly cunning, but efficient; Mrs. Torrence (Edna Ellsmere), an Irish cook entirely devoid of sympathy for her invalid employer and with sharp vitriolic tongue; Dora Parkoe (Geraldine Allan), kitchen slave with a weakness for bank holidays and "pickups"; Daniel Pennell as the Scotland Yard sleuth, and Dan (Leon Forbes), a dizzy type of bell-hop—or page boy, as they are known in England—who has a tremendous power over women, and deep down no feeling at all, a new type of role for this popular actor.

Take all of the above, give it the setting of a large English country residence in a heavily forested district in one of the tight little isle's back counties and—well almost anything could happen and it all does.

Two weeks in San Francisco at the Alcazar and then two weeks at the Oakland Twelfth Street Theater.

Mr. Or Mrs. Tipsey Watch Your Step

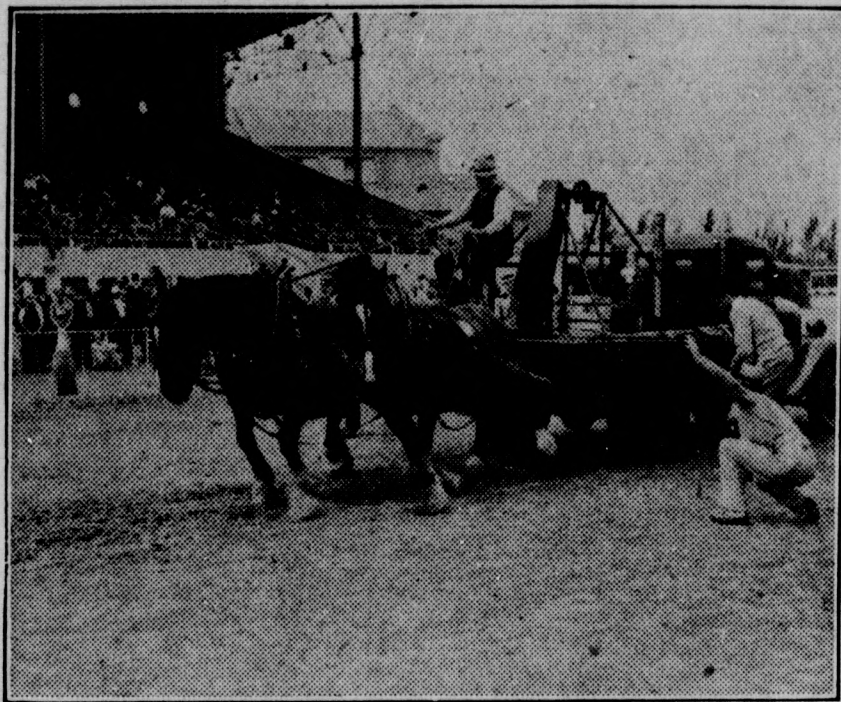

Drunken and reckless drivers in Pennsylvania are now faced with a quicker and more severe punishment. The procedure to be followed by state authorities was recently outlined.

In the case of drunken drivers, all motorists under suspicion are to be taken by the motor police to the nearest physician for examination. If the driver is found to be under the influence of liquor, he is given a hearing before a departmental inspector. When evidence warrants, the driver is penalized by immediate suspension of his license for six months.

Upon conviction on the drunken driving charge, the operator is further penalized by revocation of his license for one year, beginning with the date of the original suspension.

Strength of Horses and Mules to be Measured at State Fair

By C.N.P.A., Inc., Service

The California State Fair dynamometer in action, showing the test of skill and strength needed by entrants in the state-wide horse and mule pulling contest. Finalists for the State Fair, to be held in Sacramento September 2 thru 11, are being chosen from 250 teams entered throughout the state in district fairs and rodeo pulling events. Used to measure the pull of the teams, the dynamometer assures contests as thrilling as any football game for the thousands of spectators who witness the event.

RELATIONSHIP IS AID MIGHT BE A LITTLE MIXED LOST BY DELAY

In Oakland, this week, 15-year-old Eleanor Schnatmeyer and 25-year-old Edward H. Braga of San Pablo, decided they would like to get married.

When they made known their decision to Mrs. Marie Braga, 33, who divorced Eleanor's father and married Joseph Braga, brother of Edward, she approved the union.

Superior Court Judge James Quinn listened to all three sides of the story, unanimous in favor of marriage. He then granted his permission, and the couple applied for their wedding license.

Now the mother and daughter, when married to two brothers, will become sisters-in-law.

Kenneth A. Godwin, PWA regional director with headquarters in San Francisco, has called attention of the states and cities in his district that September 30 was the deadline for applications, and that it could not be extended. Godwin's territory embraces California, Arizona, Utah and Nevada.

He also called attention to the requirements that actual work on all PWA projects must be started by January 1, 1939. He stated nearly a thousand applicants for allotments in his area were already late in indicating their final decision. The director said they take the risk of delaying too long to gain benefits of the current PWA program.

"ISLAND IN THE SKY"

Business Is On Upturn All Over

Marking the new upward trend in business, employment in California's principal manufacturing industries rose 1.7 per cent in June over May, according to the Bank of America business review for June, just released.

This accompanied the rise of the bank's Far Western business index, which reached 68.7 for June, as compared with the revised May level of 66.8. Incidentally this ended a series of progressively larger decreases each month of 1938, as compared with the same month the year before.

California's department store sales remained stable during June, the index standing unchanged at 96.

Residential building permits issued by eleven principal California cities during June were valued at \$7,516,000, which is 26.7 per cent higher than the same month in 1937. The San Francisco regional office of the FHA selected 1736 residential mortgages for appraisal during June. This is 49 per cent more than in June last year and only slightly less than the 1765 selected in May, 1938. The Los Angeles office received 2364 applications for insured loans during June as compared with 2447 in May.

"On the basis of the above data," notes the review, "it appears that residential building activity in California will not show any sharp decline during the coming weeks."

Bank debits showed a daily average of 0.7 per cent better for June than for May.

"Give me your telephone number, Gretchen, dear."

"9999."

"All right, then, don't!"

When a bandit held up the night clerk in a hotel in Philadelphia and was about to open the hotel safe containing \$250, the janitor approached and sneezed. The sneeze routed the bandit.

BRISBANE LOSES TO ST PHILLIPS CYO BALL TEAM

When the boys lost the ball game last week it was sort of hard to take. The final score was 3 to 1.

Billy Strassburger pitched fine ball all the way and especially in the clutch did he fog the ball across the plate to retire the side.

Going into the eighth with the score 1 to 1, a C. Y. O. boy was safe on first following a scratch hit. Then the tide turned. The next batter, who had previously whiffed four times, stepped up to the plate and managed to pole one out to right field. Dave Miller running at top speed made a fine attempt to grab it on a pickup, but luck was against him and he booted it out of reach and two runs scored.

The Brisbane team is out night after night now, working out injuries and flaws, and will be back this week fighting as hard as ever.
